# DevMan Dashboards

DevMan comes with a rich set of predefined dashboards available from the home page. These cater for the times when you want to go beyond the standard views and interactively change the filters and see the results there and then.

Configurable – To see the data of most value to you, predefined saved filters allow for quick changes to be applied and update dashboards on the fly.

■ 2014 ■ 2015 ■ 2016

Interactive – Change the dashboard theme or display suite easily to view the same data in a different light. Drill down to see more details.

Predefined dashboards

To view dashboards select the Home tab, then Dashboard >> Full screen.
Select a theme then apply any of the pre-defined display suites and / or a saved filter.

Theme	People	Initiatives / Development (Projects, bursaries, approaches)	Finance (Payments, donations, budgets)
Display suite	Locality and maps Age group Gender Race etc.	Status Locality and maps Category Focus area etc.	Paid from / to Locality Status Focus area etc.
Filter	(as saved on advanced search)	(as saved on advanced search)	(as saved on advanced search)
